

It's fun to wander through the alphabet at Dalzell!

Take a walk through the woods, the gardens and the nature reserve and see what you can find beginning with the letters of the alphabet. It might be a type of plant or animal, a building or even something written on one of the signs.

Then write the words you've found next to the letters they begin with on this list. Some are already filled in to help you get started.

* OK, so this one's a bit of a cheat – but there are lots of extra special trees if you look out for them!

** This one's a cheat too – but we couldn't think of anything beginning with Z! Can you?
